

# EXTRA GOVERNMENT GAZETTE

## VANCOUVER ISLAND.

Published by Authority.

Vol. II. VICTORIA, SATURDAY, FEBRUARY 4, 1865. No. 7.

*Colonial Secretary's Office,  
Victoria, 26th January, 1865.*

His Excellency the Governor directs the publication of the following report of the Surveyor General for the year 1864, for general information.

By His Excellency's command,

HENRY WAKEFORD,  
Acting Colonial Secretary.

LANDS AND WORKS OFFICE, }  
6th January, 1865. }

SIR,—I have the honour to furnish, for the information of His Excellency the Governor, the following general Annual Report.

### ROADS, STREETS, AND BRIDGES.

1. Schedule A appended, shows the length of Road made, or Bridge built; description of the same and cost—Some of the works for which money was voted are incomplete, owing to the discoveries of gold at Leech River, and the consequent inflation and uncertainty of the Labour Market, during the summer months.

### WORKS AND BUILDINGS.

2. In order to carry out the improvement of Victoria Harbour, the late Surveyor General went to England and purchased the machinery and ironwork of a Dredger and Steam Tug vessel, the former of 25 horse power, and the latter 40. The hulls for these vessels were built in the Colony, and as far as practicable, of native materials. The following are the chief dimensions of the steamer :—

Length, 110 feet ; extreme breadth, 18 feet 8 inches ; depth of hold, 10 feet 6 inches ; burthen in tons, 153 and thirty-nine ninety-fourths. The hull of the Dredger is 100 feet long, 22 feet 1 inch broad, and 10 feet deep, and is about 300 tons Burthen.

### VICTORIA DISTRICT SCHOOL.

Sundry repairs, much needed, have been effected, and a new well sunk, and bricked up ; also, chimnies for stove pipes built.

### GOVERNMENT BUILDINGS.

The main building, new Court House, and House of Assembly, have been painted and the roofs repaired ; stables have been erected.

## RACE ROCK LIGHTHOUSE.

The tower has been painted in alternate bands of black and white, on the recommendation of the Commissioners.

## FISGARD LIGHTHOUSE.

Has been lathed, furred, and plastered, throughout all the dwelling rooms, which were very damp and dangerous before.

## GOLD COMMISSIONER'S HOUSE AT LEECH.

A substantial log house, with the necessary offices, and with stone chimnies has been built at the forks of Sooke and Leech Rivers, containing also a court room and constables' quarters.

## SURVEYS.

3. There have been very few made this year, one of the most important is that of part of the CHEMANS DISTRICT, in which the Range Lines have been cut and marked and posted. A partial survey of COMOX DISTRICT has been made, to prevent confusion among the settlers. A survey of the suburban lots in NEWCASTLE TOWN, Nanaimo District, has been made with a view to selling some in the spring. MAPLE BAY TOWNSHIP has been surveyed with the same object. A TOWN has been laid out at the FORKS OF LEECH AND SOOKE and a few lots sold. LEECH RIVER has been surveyed as far as the Devil's Grip, in order to prevent litigation among the miners, and Posts put in at every 220 yards, and connected with the centre of the river. GOVERNMENT RESERVE at Mount Douglas, known as Hyde Park, has been re-surveyed, and the corners marked with stone posts. The PUBLIC PARK at Victoria has been similarly marked.

## LAND PRE-EMPTIONS.

4. Schedule B shows the number of pre-emptors and number of acres pre-empted in each District during the year.

Schedule C COWICHAN—In these 5 Districts there are 65 males and 9 females, last year there were 63 males and 8 females—number of acres occupied 7,585, showing an increase of only 435 acres over last year. The estimated value of the improvements is \$24,065 compared with \$10,385 last year, showing an increase of \$13,680. Improvement per acre is \$3.17. Total number of acres recorded 37,687 of which only 7,585 are actually occupied.

NANAIMO, Schedule D—There has been a great deal of settlement in these 4 districts, but the exact value of the improvements I am unable to report, as the Land Recorder has not furnished the necessary information.

COMOX, Schedule E—Total number of acres occupied, 4,530, showing an increase of only 630 over last year. Estimated value of the improvements is \$7,855, showing an increase of \$3,102 over last year; value of improvements, \$1.75 per acre; number of acres recorded, 11,114, of which only 4,530 are occupied. Owing to a misconstruction of the Land Proclamation Act of 1862, many farms on which Certificates of Improvement have been granted, have been vacated last summer. I regret to report that in those Districts where no Land Recorder has been appointed, many Certificates of improvement have been obtained by fraud and in some cases under the misconstruction mentioned, the lands have been left not only unimproved, but shut out from the reach of improving settlers. I shall endeavour to guard against this evil in future by requiring a Schedule of the improvements on the land on which it is sought to acquire a certificate of improvement.

I have &c.,

(Signed.)

B. W. PEARSE.

The Hon.

Acting Surveyor General,

THE ACTING COLONIAL SECRETARY.

# SCHEDULE A. ROADS, STREETS, AND BRIDGES.

NAME OF WORK.	LENGTH.	Amount expended exclusive of Superintendence.	DESCRIPTION OF WORK.	REMARKS
